GROUP 1700*

Sir:

In response to the final rejection of January 2, 2003, please amend the above identified application as follows:

In the claims:

1. (Amended) A pipette assembly having a small volume disposable tip capable of taking very small quantities of samples in an accurate manner, the pipette assembly being of an inexpensive construction, the pipette assembly comprising:
a suction device having a female tip receiver for receiving disposable pipette tips; and a disposable pipette tip formed of extruded plastic tubing which has relatively uniform inside and outside diameters, the tubing being snugly received in the female tip receiver of the suction device.
